General Policies

1. In-Person Visits to Lillis 240 for Tutoring Help

Drop-in and appointment-only in-person tutoring is offered based on specific availability, subject to change due to unforeseen circumstances. Masks are optional. To ensure students are able to get help efficiently, please the following policies:

- The tutoring suite is **not** a study hall for working on homework. Come organized and prepared with specific questions for tutors, **after** reviewing course materials and attempting to complete assignments.
- If not feeling well or experiencing COVID-19 symptoms, visit the UO COVID prevention safety resources website for guidance and/or stay home to avoid the spread of illnesses.
- Once your active tutoring session concludes (sessions generally last **30–45 minutes**), use common area study spaces in Lillis or the computer lab in Chiles 326 to study and/or work with peers.

2. Getting Tutoring Help

- Tutoring is available **only** for the courses listed in our schedules below.
- Tutors do **not** take tests/quizzes for students, complete assignments, give answers to assignment questions, or check answers for correctness.
- Tutoring is **not** a substitute for attending lectures or discussion sections (instructors and GEs are course content experts).
- Tutors are **not** qualified or permitted to teach course content; they can only help to clarify concepts. If you are unable to attend class, review assigned readings and/or slides, watch recorded lecture videos, ask classmates what you missed and visit your instructor's/GE's office hours.
- We do **not** tutor EC 311 or any topics in the course. FIN 311 and EC 311 content is not the same.
 - The Economics Department maintains a short list of graduate students who have expressed an interest in tutoring undergraduate students. Email undergraduate coordinator, Mike Peixoto, to request for the current list: mpeixoto@uoregon.edu.
