Oregon Executive MBA

STUDENT DIRECTORY

CLASS 36
JAMES AMOS
MARKET VICE PRESIDENT
Capitol One

James Amos has spent the past five years working in the commercial payment space. He currently works at Capitol One and partners with large organizations across the West Coast to implement digital treasury solutions. Previously, he worked at American Express for three years, developing relationships with middle market companies in the San Francisco Bay area to increase acceptance of Amex payment products. He worked to close the coverage gap with Visa/MC, open up acceptance at cash only merchants, and drive incremental volume with existing merchants. Prior to Amex, Amos worked at Amazon in Seattle, recruiting sellers into the Fulfillment by Amazon program for Amazon.ca. As part of a new direct sales effort he was able to help shape the foundations of the program and use anecdotal evidence to influence product improvements. He lives in Northern California with his wife Kate and daughters Logan and Peyton. He enjoys all things outdoors- and football-related and spends his free time skiing, cycling, and hiking.

Daisy Alva is the manager of faculty employment contracts at Oregon Health & Science University. Alva provides oversight and leadership of faculty affairs in the Office of the Provost. She manages the review, design, and implementation of administrative systems and processes to accommodate the expanding scope of faculty affairs. Alva also manages business processes through cross-functional alignment. She ensures institution-wide adherence to institutional policies and procedures related to faculty affairs. She sets educational and professional goals and consistently exceeds them. Alva earned a bachelor of science degree in business administration, human resources, and general management from Portland State University.

STARBUCK BALLNER
GLOBAL PURPOSE OPERATIONS SPECIALIST
adidas

Starbucks Ballner is a member of the newly created global purpose team at adidas. In this corporate social responsibility role, Ballner helps deliver product and program support to mission-aligned non-profit organizations in the U.S. while implementing systems and processes for purpose-driven adidas teams around the world. Prior to joining adidas, Ballner served in the U.S. Coast Guard leading search and rescue missions at Cape Disappointment and as a non-profit disaster response project manager. He earned his bachelor’s degree in business administration from Drexel University and is an AmeriCorps alumnus.

MATTHEW BARISH
PROJECT MANAGER/CONSULTANT

Matthew Barish is a creative and analytical thinker with more than 10 years of experience matching business strategy with internal operations and staffing needs for creative studios, startups, and global organizations. He is skilled at simplifying the complex, flagging risk, and deploying new processes to improve efficiency and productivity across capabilities. Recognized for proactive communication and never hiding behind email, Barish is very comfortable with change and ambiguity, always finding a way to get things done right. He specializes in optimizing what’s not working or building frameworks from scratch. Outside the office, Barish is a runner, a skier, an avid baseball fan, and a furniture builder.

BRANDY BEGIN, BSN, RN, CNN

Brandy Begin is the current manager for the pediatric peritoneal dialysis program at Doernbecher Children’s Hospital/OHSU, serving the needs of pediatric patients throughout Oregon and Southwest Washington requiring end stage renal disease care. She was the founding project manager, building and leading the program from the ground up. Begin is a contributing author to nephrology nursing textbooks and academic medical journals including Pediatric Nephrology and CJASN. She holds a faculty position with the Children’s Hospital Association, standardizing care of pediatric and stage renal disease through collaborative work with more than 50 pediatric dialysis programs across the country, where she presents and leads best practice.

SHANNON BERNARDY
CUSTOMER SUCCESS PROGRAM MANAGER
Workfront

Throughout her 10-year career in marketing and project management, Shannon Bernardy has consistently found herself in roles where she has been influential in internal process development and continuous improvement. Her current role at Workfront is customer success program manager. In this role, Bernardy is responsible for developing a methodology with supporting key activities to document the work performed by customer success managers, along with creating assets and enablement to support the accompanying change management plan. Bernardy has been with Workfront since 2017. She earned her bachelor’s degree in marketing management from Hillsdale College and holds a Project Management Professional (PMP) certification.
SANDRA BERRIOS
PROCUREMENT DIRECTOR
Nike, Inc.

Sandra Berrios is a global supply chain professional with 10 years of global experience, three of those years based in Singapore. Currently, she is the director of materials purchasing and trading programs at Nike, Inc. Berrios enjoys leading and collaborating with her team on solving complex supply chain challenges. In her spare time, Berrios supports two non-profits, Great Life Mentoring and Portland Backpack, by serving on their boards and volunteering.

Marion Boukouar is a worldwide product marketing manager at HP Inc. In this role, she partners with research and development, and sales and operations to launch appropriate product, service or solution and own positioning, messaging and branding of new products. She was born and raised in France where she earned her master’s degree in engineering science, before moving to Barcelona, Spain, to work as an application engineer at HP Inc. After five years of delivering customer support in Europe, the Middle East, and Africa, Boukouar relocated to the United States to pursue a marketing opportunity.

MATTHEW BERRY
ACCOUNT DIRECTOR
Swift

Matt Berry currently works as an account director at Swift, a Portland-based creative advertising agency. He leads a team focused on social media, brand strategy, performance reporting, and consumer research for brands like Gatorade, adidas, Nest, Lyft, and Starbucks. He strives to connect actionable insights with smart creative to help drive his clients’ business forward and break through. Berry received his undergraduate degree from the University of Oregon, School of Journalism and Communication with an emphasis in account management.

CARL BOEHM
SUCCESS DIRECTOR
Sprinklr

Carl Boehm has more than 15 years of experience in software and tech infrastructure with roles that include sales, business development, account management, product management, program management, and UX and UI design. Currently, Boehm works for Sprinklr, a software company that provides a social media management platform for the Fortune500. In his role as success director, he is responsible for their relationship with Nike and oversees the software research and development co-development program between the two companies.

ERIN CORBETT
FACILITIES OPERATIONS MANAGER
OHSU

Erin Corbett is currently leading teams within OHSU’s campus services department, focusing on business processes and operational support. She has a strong focus on continuous process improvement, creative problem solving, and strategic planning. Corbett is also a Gallup-certified strengths coach, and shares her passion for strengths-based engagement and personal growth with all of the teams she supports. Corbett brings more than fifteen years of healthcare services experience to her current role at OHSU, and holds a bachelor’s degree in management and organizational development from George Fox University.
Matthew Curths is a retired United States Air Force senior master sergeant. He has more than 21 years of work and management experience. He carries a technical background related to jet engines and fighter aircraft. Curths has recently made a career change and transitioned into the real estate market and currently works as an appraiser for Fireside Appraisal Company. Over the past few months, Curths has placed significant importance on developing a strategic plan to help move the company forward by acquiring additional clients. During his time in the Air Force, he achieved a bachelor’s degree in technical management from Embry Riddle Aeronautical University.

John de Olde is a product marketing manager at Hanvon Ugee USA, Inc., developing a new brand of professional digital pen displays and tablets for the creative industry. He has worked in this market segment globally for more than 10 years with creative professionals and studios like Pixar, Disney, Sony Animation, DreamWorks, Laika, Marvel Comics, Kodansha Comics, and many others. He is a graduate of Sophia University (Jochi Daigaku), with a bachelor’s degree in international business and economics. Before returning to the U.S. in 2016, he lived and worked in Tokyo, Japan, for 24 years.

Zeina Do is a global account manager in the logistics and supply chain field, with professional experience managing customer relationships and aligning business strategies across a multitude of industries. She has worked with large companies based in Portland, Eugene, and the San Francisco Bay area, and is skilled in inventory optimization, import/export, trade compliance, international transportation, transportation security programs, warehouse operations, and system data integration. Do holds a bachelor of science degree in marketing and management from Portland State University. She is also a licensed U.S. Customs House Broker for trade, and is IATA-FIATA Air Cargo Certified.

Dallas Duncantell is a subcontracts program manager for Collins Aerospace, a leader in technologically advanced and intelligent solutions for the global aerospace and defense industry. At Collins, Duncantell is responsible for building and leading cross-functional teams to take on some of the most complex and challenging problems confronting the development and sustainment of the F35 Joint Strike Fighter, helmet-mounted display, and various other fixed-wing platforms. He previously served eight years in the United States Marine Corps, including three deployments in support of Operation Iraqi Freedom as a non-commissioned officer in charge for the legal support team. Duncantell holds a bachelor of science degree in project management from George Fox University.

Angela Dunham is the program manager for the Oregon Beverage Recycling Cooperative’s flagship Green Bag program, which manually processes nearly 6.5 million bags of recycled beverage containers each year. She is responsible for overseeing all policy development, operations coordination, and quality control of the program. Prior to her role as project manager, Dunham was the organization’s customer service manager, where she utilized previous customer service experience to implement lasting changes to the department. Dunham earned her bachelor’s of science degree from Portland State University, where she majored in environmental studies with an environmental justice focus and a minor in geography.

Natasha Elhaj-Hedinger has worked as a project manager in various fields. Five years ago, she served as a field coordinator for EMGAGE, a not-for-profit organization that strived to get underrepresented minorities involved in the voting process. Elhaj-Hedinger completed her BS at Nova University in Florida and elected to commence initial graduate work in Lebanon where she met her to be husband. Later they moved to Portland Oregon, where they now live with their four kids. She currently serves as a board member for the Maurice Lucas Foundation, as well as working with the Hedinger Family Foundation striving to find better ways to give back to the community.
YE FENG
DIRECTOR OF MACHINE LEARNING R&D
LAM RESEARCH

Ye Feng is currently a technical director of Lam Research, responsible for machine-learning algorithm development in advanced equipment and process control. He has been working in optical simulations, algorithms, and sensor and metrology applications in semiconductor for 20 years and invented optical scatterometry solutions for process control in logic nodes from 90nm down to 5nm. Feng has been granted nine patents related to algorithms and optical sensors. Before joining Lam, he was the senior director of engineering and key account applications at Nanometrics. Feng received a PhD in condensed matter physics from Iowa State University in 2001. In his spare time, he enjoys the Oregon outdoors with his family and volunteers to promote science education in the Portland community.

KARL FENSTERMAKER
PRINCIPAL ENGINEER
TCM

Karl Fenstermaker is responsible for engineering and preconstruction activities for a regional mechanical and plumbing trade contractor. Fenstermaker is a licensed professional engineer and spent the first decade of his career focused on designing complex HVAC and plumbing systems for Fortune 500 companies building new large-scale high-tech, industrial, and commercial facilities. He graduated from Arizona State University with a BS in mechanical engineering and enjoyed traveling supporting the design and construction of projects to multiple states as well as overseas. Fenstermaker finally settled in Oregon in 2015 to take on his current role.

linkedin.com/in/karl-fenstermaker-0208323a/

LIZ FICKEN
RELATIONSHIP MANAGER
M Financial Group

Liz Ficken is a practice consultant at M Financial Group, a network of independent firms across the U.S. and U.K. providing premier insurance and financial services design and distribution. Ficken spearheads the delivery and adoption of M’s strategic initiatives and assists in the integration of programs and technologies. She holds a bachelor’s degree in history with a minor in Germanic studies from Chapman University. Ficken is a Teach for America alumna and former Fulbright Scholar. She is a proud Big Sister in BBBS’s Beyond School Walls program.

linkedin.com/in/liz-ficken-1b106464/

JOHN E. FREDERICKS
DIRECTOR OF QUALITY, HEALTH, SAFETY, & ENVIRONMENT
Burgerville

John Fredericks is the director of quality, health, safety, and environment at Burgerville, a Pacific Northwest favorite for local, sustainably sourced burgers, shakes, and fries. During the COVID-19 pandemic, he has also been the company’s social-distancing officer. With a passion for processes and continuous improvement, he has led a variety of collaborative business system upgrades. His range of professional experiences—including martial arts instruction, private security management, auditing, emergency management, occupational safety, and providing supports to people with disabilities—has helped build a strong foundation for learning and cross-disciplinary success. Fredericks earned his bachelor’s degree in sociology from Pacific University.

linkedin.com/in/johnfedericks/

ZOE GALINDO
STRATEGIC PLANNER
Swift

Zoe Galindo is a strategic planner at Swift, the Portland-based social media COE for Wunderman Thompson. There she works to solve marketing and business problems for clients by identifying the intersection of achieving business metrics and creating an optimal consumer experience. Her work primarily focuses on brand strategy, campaign marketing, social/digital ecosystems strategies, and consumer research. Galindo has also previously worked client-side in marketing operations, giving her a holistic view of agency and brand marketing organizations. She received her bachelor’s degree in cognitive neuroscience and evolutionary psychology from Harvard University where she was also a collegiate athlete.

WILLIAM TOWNSEND
GENERAL MANAGER & ARMY AVIATION OFFICER
Westside Behavior Therapy & Oregon Army National Guard

William Townsend is the general manager for Westside Behavior Therapy, a pediatric behavioral health center specializing in ABA therapy for children on the autism spectrum. Founded in 2015, Westside has grown from a single practitioner format to a multi-provider treatment center. Townsend’s role centers around strategic planning and operations as the practice continues to grow. Townsend is also a 14-year veteran of both the Active Duty Army and the Oregon Army National Guard. He is currently the senior aviation officer for the tactical support detachment and 7th Infantry Division staff. This role spans operations, logistics, strategic planning, and management. His previous positions include two company commands, two overseas deployments, and multiple airplane and helicopter pilot certifications. Townsend earned his bachelor’s degree in business administration from the University of Oregon.
