ENTREPRENEURSHIP MINOR REQUIREMENTS

Entrepreneurship Minor Overview
The Lundquist College of Business offers a minor in entrepreneurship, which is intended for non-Business majors who want to learn about innovation processes and the managerial and leadership skills required to create a new venture. The minor gives students the opportunity to envision, develop, test, and build a for-profit or nonprofit venture working within an interdisciplinary framework of exploration and self-discovery.

- The minor requires twenty-four credits from approved courses, with a minimum of twelve upper division courses.
- All upper division courses must be taken in residence at the University of Oregon.
- A minimum grade of C- (C- or P in lower division courses) is required in all minor courses.
- It is possible to earn more than one minor within the Lundquist College of Business. However, for students earning more than one business-related minor, no more than three courses can be used to satisfy multiple business minors.

In order to declare the minor, students must not have a Pre-business, Business, or Accounting major declared. General Social Sciences (GSS) majors with a concentration in Applied Economics, Business and Society (AEBS) are permitted to declare the Entrepreneurship minor but they must adhere to the GSS double dipping policy. See https://gss.uoregon.edu/faqs/ for more information.
